Technology for creativeness

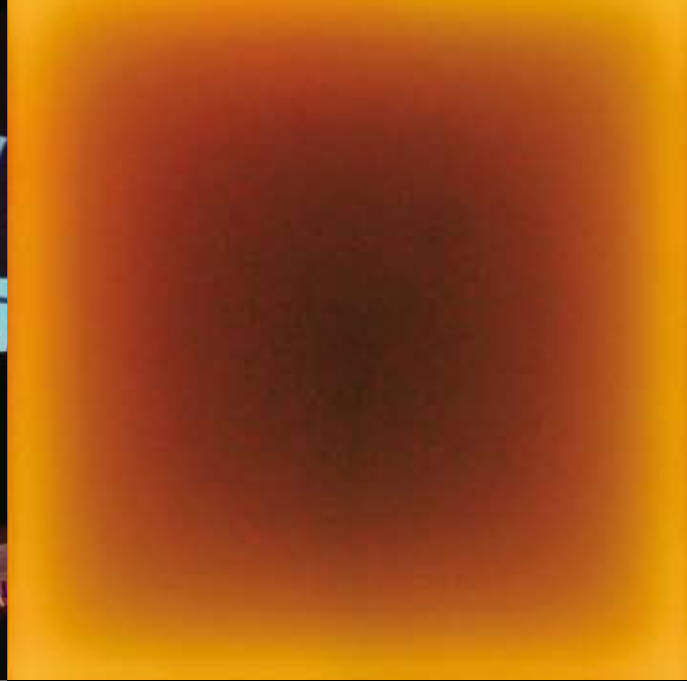

Led Panel

Led Panel system by Giochi di Luce joins both high technological content and strong effect set design features. Led Panel system by Giochi di Luce is part of Giochi di Luce technological equipment pool ensuring:

- High scenic impact
- System modularity
- Easy and quick mounting/dismantling process
- Personalization

Led Panel system by Giochi di Luce is the solution you are looking for when you have to set up both large and small areas: led walls, backdrops, corners, totem poles, catering areas, lounge areas, stages and many other solution we can design for your own purposes.

Led panel system by Giochi di Luce is built of 1 m x 1 m modular panels* (total weight is only 3.5 kg) which can be mounted self standing up to 4 m height. It is possible to build taller structures by special fastening ceiling system.

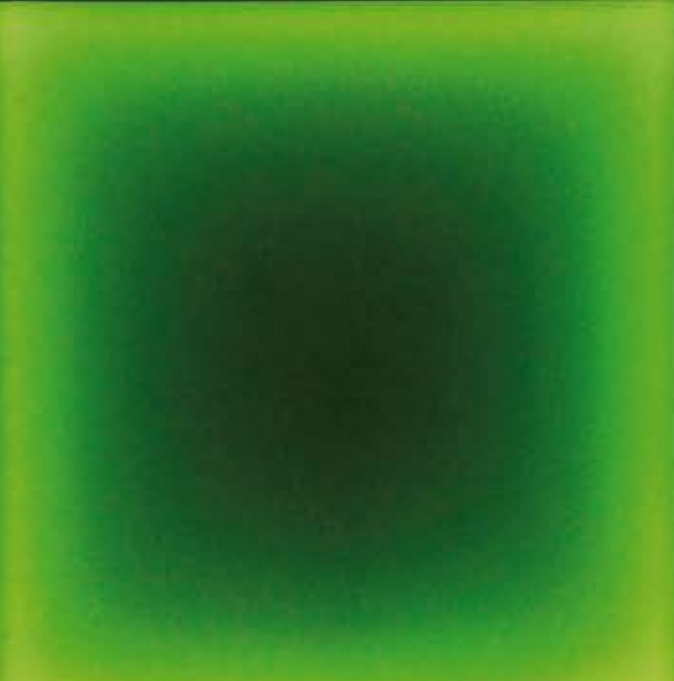

*Also available both 1 m x 3 m or 50 cm x 2 m panels

Each single panel front side is covered with a special film which creates both transparency effect and lighting spread. A led stripe is mounted on each side of the panel frame so to create special lighting effects while a fireproof panel is mounted on each frame rear side.

Led Panel system by Giochi di Luce can mount the following screen types:
4:3 - 3 m x 2,25 m (1 m x 0,75 m led panels are available to guarantee modularity)
4:3 - 4 m x 3 m.
